## PEACE PLAN HIT

### Reports of Rail Strike's End Being Near Declared Bunk by Road Chief

### Eastern Executives Will Not Recede from Stand on Seniority, He Says.

NEW YORK.—(United Press.)—Dissension in the ranks of the American Association of Railway Executives today endangered settlement of the shopmen's strike.

"Bitter-enders" of the carriers composed mostly of eastern executives, branded reports that the strike was about over as "propaganda" and "bunk."

L. F. Loree, president of the Delaware & Hudson, pointed out that the eastern executives had not receded from their stand on seniority. Loree was prepared to voice his opposition at the meeting tomorrow at which a committee, headed by T. DeWitt Cuyler, will present the plan of peace offered by the leaders of the big four brotherhoods.

"The reports intimating that peace is coming in the railroad strike are all bunk," Loree stated today.

Frederick Underwood, president of the Erie, charged that the reports of impending peace were propaganda circulated by the strikers. Both executives said their roads were winning in the fight against the strikers and that conditions would be normal very soon. "It let alone the railroads will take care of themselves," said Loree.

WASHINGTON.—(United Press.)—Railroad executives must accept defeat on the seniority issue if the walkout of shop workers is to be settled, one of the leading labor figures in the strike, told the United Press today.

Unless the managements are prepared to concede the shopmen's demands for restoration of seniority rights, the peace conference of brotherhood leaders and railroad executives in New York tomorrow will be futile, he said.

Violence breaks  
CHICAGO.—(Associated Press.)—Walkouts by trainmen on the Southern railway resulting in tieups in North Carolina; bombings, beatings and investigations of alleged wreck plots marked progress of three rail shopmen's strike today.

Eight companies of state troops were on duty about the shops of the Southern railway at Spencer, N. C., where 1,700 men are out, and about 100 postoffice at Salisbury, N. C., miles from Spencer. The troops at the postoffice were requested by Postmaster A. H. Boyden, who alleged that open threats had been made to lynch a postoffice clerk.

All trains arriving at Spencer after midnight on the Southern were tied up with the exception of number 138 which left with Clyde Keever, general foreman of the Southern shops, at the throttle.

Traffic on the Louisville St. Louis division of the Southern will be tied up completely at 1:01 a. m. Thursday unless officials of the road and brotherhoods effect an agreement on the road's use of armed guards.

At Huntington, W. Va., a second attempt to dynamite a Chesapeake and Ohio railroad bridge was frustrated when a track walker frightened away men from the trestle. The left box of dynamite and forty feet of fuse.

San Bernardino, Calif., remained in a high state of excitement over renewed outbreaks in the Atchison, Topeka and Santa Fe yards. A striking electrician was killed and another striker perhaps fatally wounded in a running pistol fight with a negro waiter employed at the commissary inside the Santa Fe enclosure.

A hotel at Smithfield, Penna., where 25 railroad workers were quartered was bombed early today. F. McGraw, vice-president of the railway employees' department of the American Federation of Labor (shop workers) issued a statement today declaring the real cause of the Michigan Central wreck at Gary, Ind., early Sunday, was clearly an "unfit locomotive" and "characterizing the road's charges" as "a lie."

McGraw's statement came on the heels of the verdict of the coroner's jury which found that the engineer and fireman of the wrecked express came to their death "as a result of a plot to wreck the train."

It also followed an announcement by State's Attorney Crowe's office adding failure to discover sabotage plots in correspondence seized in raids upon the offices of William Z. Foster, radical leader and head of the Trades Union Educational League.

Federal investigators declared they would have known of train wrecking was to have played a part in the "one big union" program of Foster and his followers.

Foster's activities, so far as federal and state investigators could learn, were confined to his efforts to convert trade unionists to the "one big union" idea, thru which, it was asserted, Foster hopes to gain control of American labor organizations.

Federal investigation of the wreck at Gary, Ind., was continued today. Agents under orders from the department of justice took a number of striking shopmen into custody at Gary for questioning.

## POOR GOUGED BY G. O. P., SENATOR POMERENE SAYS

COLUMBUS.—(Associated Press.)—Charging that the Republican administration at Washington had repudiated its campaign pledges of 1920, and that a great part of the legislation by the present congress had been for the benefit of big business rather than the ordinary citizen, Senator Atlee Pomerene, delivering the keynote address at the Democratic state convention here today, predicted a Democratic victory in November.

"After March 4, next, there will still be one Democratic senator in Washington from Ohio and more than half of the house delegation from Ohio will be Democratic," he said.

BITTER TARIFF ATTACK

Bitter criticism of the Republican tariff bill which he termed "the greatest piece of 'pork barrel' legislation in the history of congress," formed the major part of the address which also touched upon what Senator Pomerene declared the complete failure of the administration to enact constructive legislation. Republican revenue legisla-

tion placed the burden of taxation upon persons and businesses of smaller income and relieved wealthy persons and corporations earning excessive profits, he declared.

Only passing mention of the Newberry case and other senatorial matters was made by Senator Pomerene who declared that he had "no apology to make for what I have said or done at Washington," and that during the campaign he would "give the voters of Ohio the opportunity to distinguish between false charges on the one hand and facts on the other."

STATE ADMINISTRATION HIT

Turning to the present state administration, Senator Pomerene said that like the national administration, it had failed to fulfill its promises. Governor Davis' reorganization bill was termed "one piece of legislation which is sufficient to condemn it (the Davis administration) for all time." Thru the bill, Mr. Pomerene declared, Governor Davis "sought to get control of the state govern-

ment in defiance of the civil service and at the same time to take away from the people the referendum vote which was accorded to them by the constitution of the state."

Governor Davis, Senator Pomerene said, had promised to reform the taxation system of the state, but "that task is left for Governor Donahey and his colleagues in the state government to perform." He lauded Donahey as having fulfilled all pledges while state auditor and declared he would prove faithful to "the higher honors that are to be conferred upon him."

COMBINATION CHARGED

In his condemnation of the tariff bill, Senator Pomerene charged that it would increase the cost of living, destroy the foreign commerce of the country, thru the powers given the president, put more government in business rather than less, and that it was neither "just," "fair" nor "impartial." Manufacturers had combined together, he declared, to

## REPUBLICAN RACE CALLED DISGRACE

### Primary Reeked With Money, Donahey Tells Convention

### "HIRED WORKERS ON JOB"

### Nominee Promises Clean-up if Elected Governor

COLUMBUS.—(Associated Press.)—The "menace of the Thompsonism in Ohio, and Newberryism in Michigan," was held up as a possibility in the coming campaign for governor by A. V. Donahey, New Philadelphia, Democratic candidate for governor, in his address today before the Democratic state convention.

"The recent Republican primary reeked with money," Donahey declared. "Hired workers flitted about the state, their pockets bulging with the loot of corrupt politics. The 'barrel' is to be on tap this year, and the preliminaries prove it beyond a doubt."

PROMISES CLEAN-UP

Donahey asserted the Republican primaries this year were a "disgrace." "There was no honest election in many places in Ohio," he said. "If elected, and the people give me a friendly general assembly, I propose to clean up the primaries, and investigate the lavish expenditures of money."

"Can a man, who spent more money to secure a nomination than he will receive in salary, if elected, have a proper regard for his oath of office?"

Taxation was stressed as an issue by the Democratic gubernatorial candidate. He scored the reorganization code of Governor Davis, and said the latter "raped the people's constitution" to enact the law.

He said "Maurice Maschke wants to hand Ohio Carmel Thompson, as he handed it Harry Davis."

ECONOMY MEASURE

Abolishing various commissions and the like at the principal economy measure, Donahey asserted. "When the Democratic party turned the state government over to the Republicans the state property tax stood at 65-100 of a mill producing for 1920 \$5,170,432.96."

"The Republican administration, violating its platform pledges, and in the face of every known rule of public economy, immediately raised the state property tax levy, producing directly from the pockets of the Ohio taxpayers for the fiscal year of 1922, \$17,075,754.97, just \$11,905,322.01 more than was collected for the fiscal year 1920."

"No wonder the general assembly called into extraordinary session to provide further funds to meet adjusted compensation of former soldiers found a large surplus in the general revenue fund. The taking of millions from the pockets of the people in additional direct taxes was inexcusable."

Donahey cited Governor Davis' Washington C. H. speech of the 1920 campaign in which Davis is alleged to have said he could reduce state expenditures hundreds of thousands of dollars, and that he would not seek re-election unless he accomplished this.

"He has furnished his own answer to my charge that he has failed to reduce expenditures," Donahey declared. "Governor Davis is not a candidate for re-election."

CASE POSTPONED

TOLEDO.—Federal Judge D. C. Westernhaver indefinitely postponed hearings against 25 railroad strikers for alleged violation of federal injunctions.

## GUARD REGULATION PLAN

### NATION LEAGUE TO BE OMITTED

### Ohio Democrats Will Not Include Issue in Platform

### STAGE SET FOR CONVENTIONS

### Both Parties Meet Today to Adopt Programs

COLUMBUS.—(Associated Press.)—Plans for the coming political campaign in Ohio in which Democrats seek to change the makeup of the solidly Republican state administration and congressional delegation and return to the upper house of congress Senator Atlee Pomerene, were being made here today. Republicans, too, as well as Democrats, were holding their state convention at which ratification of platforms and selection of a chairman of the Republican executive committee was the main business.

It appeared prior to the actual calling of the conventions that neither party faced a fight of consequence over platforms.

RUMORED PLANK BEITLED

Rumors that attempts be made by certain Democrats to insert in their platform a plank providing for jury trials for all violations of state laws—said to be aimed at prohibition enforcement—were belittled by Democratic leaders.

The league of nations issue, it was said, would not find a place in the state platform. According to custom, it was presumed that the 1920 national platform, which supported the league of nations would be re-endorsed, but it was said no mention of it would be made in the state platform.

G. O. P. CHIEFS CONFIDENT

The reported announcement from State Senator John F. Burke, of Elvira, and colleague of George H. Bender, of Cleveland, that they would seek to insert "progressive" planks in the Republican platform, apparently was receiving only minor consideration in the Republican camp. Party chieftains apparently were confident that the movement, if started, would cause no radical changes in plans already made.

DURBIN RE-ELECTED

At a meeting last night, W. W. Durbin at Kenton, veteran of two previous campaigns, was re-elected chairman of the Democratic state executive committee. Arthur P. Black of Ashland, secretary to U. S. Senator Pomerene was selected as secretary.

William H. Miller, law partner of Carmel A. Thompson, Republican candidate for governor, was the pre-convention choice for the head of the Republican executive committee, which according to present plans, is to consist of 50 members.

Fred J. Hoer of Columbus, was selected chairman of the Democratic central committee at last night's meeting. Charles A. Truax, of Sycamore, was named vice-chairman and Clarence N. Greer of Dayton, secretary. Central committee members are each to name a member of a women's central committee, which in turn is to elect its own executive committee to take charge of women's activities.

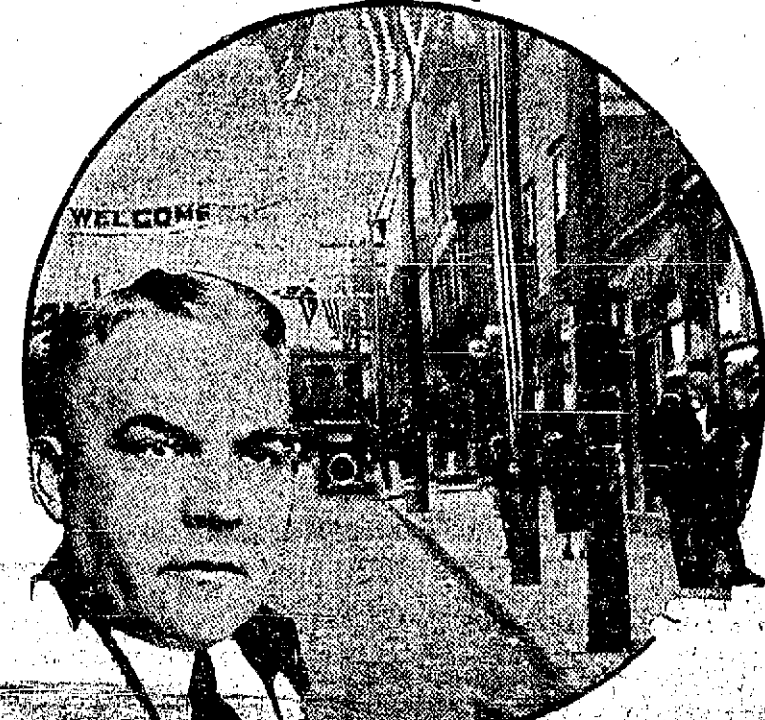

ISSUES ON FOR TODAY

Republicans did not begin actual work until today. Organization of the central committee was begun this morning with district meetings scheduled for this afternoon. Democratic assemblies in convention at one o'clock this afternoon and will complete their business before evening, while Republicans set the hour of their meeting for four p. m., with arrangements being made to adjourn tonight and continue tomorrow morning.

Keynote speakers for both parties were expected to touch upon national issues, for both are members of the present congress and will oppose each other as candidates for the United States senate. Senator Atlee Pomerene will fire the opening gun for the Democrats, while Representatives

### Prominent San Francisco Woman Offers Neighbor \$100 a Month for Rest of Life for Her Spouse

SAN FRANCISCO.—(Associated Press.)—An offer by Mrs. Edith Huntington Spreckels Wakefield, first wife of the late "Jack" Spreckels, California millionaire, and herself prominent in San Francisco society, to "buy" another woman's husband from her for \$100 a month for the rest of her life, came to light here today and is admitted by all persons involved.

The husband, whom Mrs. Wakefield is credited with having offered to "buy" is Rodney Kendrick, a newspaper artist. The wife, who is ill and admits she is "considering" the offer, said she already had given her wedding ring to Mrs. Wakefield. Mrs. Wakefield said she, too, planned a divorce.

Mrs. Wakefield is described as "39 and good looking." Kendrick's mother and sister said they had urged the young

## COUGERS' NAMES DEMANDED

### Davis Asks Hoover for Data on Coal Profiteering

COLUMBUS.—(United Press.)—Governor Davis today had forwarded to Secretary of Commerce Hoover a request for names of Ohio coal operators who are profiteering, if Hoover can supply names, so that "they may be dealt with as they deserve."

Davis' request followed a telegram from Hoover which declared the federal authorities were informed certain Ohio coal operators were asking from \$7 to \$10 for a ton.

"If there are coal operators in Ohio so utterly calloused to every principle of fair play," Davis said in his message, "in dealing with the public as to seek exorbitant prices, the people of Ohio want, and I believe they have the right, to know who these concerns or individuals are. I request, therefore, that you make public the names of these operators."

Davis said investigation is now under way to determine cost of producing coal in Ohio so that a fair price may be ascertained and established.

FRAMING NEW LAW

WASHINGTON.—(United Press.)—A new law to curb coal profiteering is being framed by administration cabinet members.

At the suggestion of President Harding several plans have been submitted to Attorney General Daugherty and he is expected to confer with Secretary Hoover and Davis today in an effort to find satisfactory measure.

Unexpected legal difficulties are hampering the attempt to provide federal supervision of fuel prices.

## CLASH IN STREET CAUSES ACTION

### Restriction on Carrying of Guns by Rail Men Urged

### STRIKER IS SHOT IN HAND

### Two Men Held by Police as Result of Fight

Railway shop guards will be prohibited from carrying weapons outside the bounds of railroad territory, if Chief of Police Lankers plans to prevail.

The chief will seek some means of regulating the action of the guards, he announced Tuesday. His action comes as the result of the shooting after Monday night, in the heart of Lima, business district, during which George Graham, 1136 N. Elizabeth-st. striker, was shot and R. B. Little, a guard, shot down by Merchants' Police.

Chief Lankers had appeared at the scene Tuesday morning, John Goebel, chief of guards at the L. & W., was waiting at police headquarters in support of him when he wanted sworn in as special guards.

The chief granted Goebel's request.

WILL ADD GUARDS

A few moments later, Lieutenant Sevier, in charge of guards at the B. & O., announced his intention of adding men to the force guarding his shop.

The increases are believed to be the direct result of the Monday night clash.

Three United States marshals are in Lima and others may be ordered here as the result of the running gun battle in the public square and N. Main-st, Monday night, according to B. & O. railroad officials Tuesday. The action, it is claimed, is in support of the federal court injunction against interference by strikers.

The battle started between 7:30 and 8 o'clock when George W. Graham, 1136 N. Elizabeth-st., is alleged to have followed K. B. Little, B. & O. guard, from McKibben-st. to the square on a street car. When the car stopped at the transfer, Little alighted and walked to the Lima

Co. corner, it is said.

GUARD ACCOSTED

It was there that Graham is said to have accosted him and words followed, attracting a crowd. Merchant Policeman Harsh, hearing the altercation, stepped up. He is declared to have been without uniform and displayed no badge. Little pulled his gun and threatened Harsh, telling him to keep out, when Graham grabbed the gun and in the scuffle that followed, it was discharged, shooting Graham thru the hand.

During the scuffle, Harsh struck Little over the head with the butt of his revolver, knocking him to the pavement and cutting a deep gash in his head.

Little took to flight, and a shower of bullets followed him from Harsh's gun, one striking the Sigma three picture frame, and another chipping a piece of stone from the City bank steps.

Little ran into the United Cigar store where L. J. Hoke, another guard, was purchasing cigars. Hoke pulled his gun to protect his colleague, but arrival of the police ended the affair.

City Manager Bingham and Chief Lankers started an immediate investigation, the manager complimenting the Merchants' policeman on his gun work. Officer James, off duty and seated in his automobile parked in the public square had also joined in the chase, it is said.

A charge of shooting with intent to kill was placed against Little and his bond fixed at \$500 when he was arraigned Tuesday.

A charge of pointing a firearm was preferred against Hoke and his bond was fixed at \$200.

Both Little and Hoke entered pleas of not guilty upon arraignment. Graham walked to police headquarters and gave himself up after the battle. He was not held, however. His wound is not serious.

## TIME CONFUSING AT FAIR

Central Standard Governs all Events, Board Announces

BIG CROWD AT OPENING

Displays Increase — Record Crowds are Anticipated

Difference in time between Lima and the surrounding district is causing much confusion at the Allen-co fair.

This became apparent Tuesday when two events, the spelling bee for district school children and judging in boys' and girls' club work, were delayed. Many parents who were eager to see their children in the spelling contest did not come until an hour after it started. The stock judging was postponed until Tuesday afternoon.

The confusion has led to an announcement that the fair on other days will be conducted on Central standard time.

Despite many little inconveniences, the fair opened with a bang. Grounds filled up early and the amusement devices were hard put to accommodate the many who sought a whirl or two.

**BIG HOG DISPLAY**  
Preparations to care for the large livestock entries were being feverishly pushed Tuesday. Charles F. Sprague, superintendent of the swine department, says his exhibits are the best in the history of the fair.

August Kruse, the Wapakoneta hog king, has 18 head of Durocs on exhibit. Paul Smith of Upper Sandusky, has ten head of Poland-Chinas and other exhibits are Howard McClain, Shawnee-tp, Berkshire, V. S. Halston & Son, Govey Ind., Chester-Whites; Charles F. Sprague, Shawnee-tp, Durocs; Robert Dunlop & Sons, Ft. Jennings Hampshires; Carl Lutz, St. Marye, Chester-Whites; Bassett & Son, Bath-tp, Poland-Chinas; Mel Steinen, Ft. Jennings, Berkshires and W. T. Agerton, Durocs.

An exhibit of 13 head of Hereford cattle is being made by Ira L. Price, Anglin-co, Pleasantville, the breeder. L. Daniels of Kallida has 17 head of Holsteins. Edwards Bros. of Vaughnsville have 14 head of Aberdeen Angus. George N. Fisher of Wapakoneta, has 12 Shorthorns. Fred Bros., Columbus Grove, also is showing Herefords.

**BOWER OF BEAUTY**  
The Grange Hall is a bower of beauty, outvaluing the bourn of plenty. Everything good to eat is there.

The fair board held a meeting Tuesday morning and it was the unanimity of opinion among members that the fair on Wednesday and Thursday will surpass all records for attendance.

Race horse men declare the race track to be the best they have laid on this season. The oval was level as a door for the opening events Tuesday afternoon, featuring "Marzella," "Loyalty," "Dustino," "Sir Aftonback" and other horses with fancy names.

## MANY DELINQUENT

Failure to Pay Taxes Greater Than Last Year

Delinquent taxes in Allen-co for the past year amount to more than \$50,000 in excess of the delinquent total for 1920, records of the office of County Auditor C. B. Phillips disclose.

Delinquent taxes in 1921, amount to \$123,830.15, while in the year previous the total of back taxes due only amounted to \$73,597.42.

A depression in business thru the year of 1921, and the consequent inability of persons owing the county to take up the necessary money, explains the increase in part.

Collections were, however, almost \$70,000 greater for 1921 than for 1920.

December collections totaled \$1,145,411.93. June collections totaled \$1,021,531.77. The grand total for the year is \$2,166,943.69. Collections in 1920 were \$2,097,238.25. The tax duplicate for 1921 shows an increase over the previous year. The increase is \$119,938.17.

## FORMER LIMA MAN IS MISSING, FRIENDS LEARN

Orel Phillips, former automobile dealer in Lima, has disappeared from his home between Ft. Wayne and New Haven, Ind., E. H. Hawisher, local automobile dealer, was notified Tuesday.

Phillips was last seen at his home about 10 a. m. Monday and was supposed by his wife to be in the garage working on an automobile. About noon she discovered his hat and coat but he was gone.

Bloodhounds were called for and Phillips was tracked to the paved road in front of the house. It is believed he entered an automobile and went either to Ft. Wayne or Lima.

## FLYERS, LOST AT SEA, RESCUED

Plane Forced Down in Ocean When Motor Fails

HELPLESSLY TOSSED ABOUT

Finally Picked up by Fishermen—Machine Abandoned

NEW YORK — (United Press)—Saved from the wreck of their aeromarine flying boat, Ambassador II, which was being battered to pieces by terrific seas off the New Jersey coast, V. S. Robinson, of Pittsburgh, Captain Miller and a mechanic were brought here today. Navy seaplanes and a submarine chaser had hunted for the lost fliers for 24 hours, during most of which time they were aboard a fishing vessel scarcely more seaworthy than their shattered plane.

Robinson, who had motored with friends to Atlantic City, took the ocean to cool off during the hot spell by an early morning flight, he said today.

**MOTOR FAILS**  
The Pittsburgher told of the descent on to the sea which was made successful by Captain Miller, after the motor failed. The aeromarine flying boat rode the waves but was being battered to pieces by high running seas.

Four hours of tossing on the waves without a boat in sight came to an end when a small fishing schooner hove into view a mile away. So high was the sea that they were unable at first to attract the fishermen's attention. Captain Miller fired several signals and the fishing vessel drew near. At that time the flying boat was drifting about two miles off the New Jersey coast.

It took two hours for the schooner to maneuver into position where the men on the seaplane could make the transfer.

They all expressed an opinion that the Ambassador II was more seaworthy of the two crafts, but without motive power Captain Miller was helpless to proceed. The schooner was unable to tow the seaplane which had to be abandoned. For nearly 24 hours more the little vessel plowed along thru the storm unable to communicate with land to relieve anxiety of friends and relatives of the fliers.

They arrived here today having suffered little actual hardship according to their stories.

## ALLSTAETTER WINS NEW TRIAL IN COURT HERE

Jacob Allstaetter, aged Civil war veteran who is fighting heirs of Sarah Allstaetter for possession of his old homestead in Richmond, won a victory in common pleas court Tuesday, when Judge Henry W. Blachly, of Van Wert, granted him a new trial.

Heirs headed by Lydia Teegarden, a relative of Sarah Allstaetter, deceased, won a suit to dispossess Jacob Allstaetter.

Acting on testimony showing that Allstaetter has resided in the farm 30 years and worked in the fields, Judge Blachly, over ruled the jury's verdict and granted a new trial.

## AUTOIST IN MIDST OF STREET BATTLE HERE

Leo Clancy, Toledo, was sitting in his automobile in front of the Waldo Hotel, near Main-st., Monday night when he heard a series of sharp explosions.

He heard a "pouf" and a moment later another "pouf." After the smoke of battle cleared away he found two tires were punctured and his car struck by bullets.

Clancy will always remember his visit to Lima, he told C. A. Bingham, city manager, Tuesday when he called up the city hall to report the damage.

## BOY LOSES HIS LIFE IN ATTEMPTED TO SAVE DOG

HOOD RIVER, Ore. — Jhn Young, 18, son of Owen D. Young, former president of the General Electric company of New York, was dead here today—having given his life to save a dog.

Young was employed as material checker in a construction camp of the Pacific Power and Light company here.

The camp dog, which had been Young's companion, ran in front of a moving locomotive on the front of which Young was riding, late yesterday. The boy leaped from the engine, snatched at the dog in an effort to throw it to safety, but slipped and fell directly beneath the wheels of the moving train.

He died before help could reach him.

**PERMIT ISSUED**  
A permit to construct a \$5,000 house on Dingeldine-av. was granted Tuesday to D. S. Early, 803 W. Kiby-st., by the city clerk.

## GUARDS AT SHOPS WITHDRAWN

Troops Removed Following Ultimatum of Rail Workers

THREATEN TO REMAIN IDLE

Action Taken to Restore Service in North Carolina

SALISBURY, N. C.—(Associated Press)—The eight companies of North Carolina national guards ordered to Spencer, near here, because of strike disorders at Southern railway shops, were ordered removed today after members of the train service brotherhoods had voted to remain idle as long as the troops were retained, a telephone message from Spencer received here shortly before noon, said.

The brotherhood members, whose walkout forced company officials to man passenger trains and caused an almost complete tieup of freight service thru Spencer were joined during the forenoon by 250 clerks in the Southern's offices at Spencer and here. The clerks delayed their intention of staying out until the troops were removed.

**REPORTED TO WASHINGTON**  
WASHINGTON — Announcement was made today by general officials of the Southern railway that North Carolina national guardsmen were being withdrawn from about the company's shops at Spencer, N. C., and that members of the train service brotherhoods by agreement were returning to work.

## IRON HAND RULES, DUFFY SAYS

State and National Administrations Scathingly Attacked

COLUMBUS.—(Associated Press)—An arraignment in vitriolic terms of the conduct of the nation and state Republican administration, the last two years, formed the major part of the address of Thomas J. Duffy, East Liverpool, temporary chairman of the Democratic state convention here today.

Of the national administration, he said, "Since 1920, plutocracy has ruled in this nation with an iron hand, a wooden head and a stony heart."

He had this to say about the administration of Governor Davis: "The record of the present state administration is such as to cause all patriotic citizens to hang their heads in shame. It has lowered the governmental standards of the state, degraded the legislature, smeared the judicial online with the mire of partisan politics; scrapped the civil service law; broken down the moral on each and every department of the state government; imposed excessive taxes upon the people; and trampled upon the sacred constitutional rights of all our citizens with all the arrogance of a czar."

Scolding the reorganization bill Mr. Duffy, who was defeated for the Democratic nomination for governor at the primaries said, "The czar of Russia never had more power than is allowed to the governor of Ohio under the notorious reorganization bill passed at the last session of the general assembly."

## MEN AND MATTERS

A shipment of 351 exceptionally fine Duroc hogs will be made Wednesday from Elida, C. F. Mertz, manager of the Allen-co Livestock Co., said Tuesday.

Five brothers, Sam, Moses, Alfred, Rudy and Adam, Bingham living north of Elida, have raised the hogs. They are about six months old and will average 160 and 180 pounds each, Mertz says.

Installation of tiles to drain Central High athletic field, adjacent to the college grounds, has been completed and all that remains to fit for the football inaugural September 16 is leveling.

County Superintendent C. A. Arnganbright may attend a short training course for school men at Columbia university before the school term opens.

Re-decorating work at Memorial Hall is almost completed, the contractors, Holm & Swinehart, announced Tuesday. Everything in side, including the stage, has been renovated.

Fred B. Wallace, former instructor and athletic coach at Central High school, leaves Wednesday to enter upon his new duties as athletic ment or at Lancaster.

Following the meeting of the city commission Monday night a short inspection tour of the city was made by several of the commissioners in search of city lights which have failed to function.

Several places where lights were either missing or needed were located. It is planned by the commission to place plenty of lights in downtown alleys.

An exact copy of the fur coat worn by Mrs. Warren G. Harding, "first lady of the land," and a picture showing her wearing it in company with Herbert Hoover, secretary of commerce, and other federal officials is to be seen this week in a window at the Blum store.

## LINCOLN SCHOOL WILL BE IMPROVED THIS YEAR

Improvement matters at Lincoln school building will occupy considerable time at the meeting Tuesday night of the board of education.

Complete installation of new toilet facilities has been found necessary to replace the antiquated equipment there. The work will cost much more than anticipated a preliminary estimate placing the cost at \$2,800.

## COAL MEETING IS DEADLOCKED

Hopes for Peace at Philadelphia Parley Fade

PHILADELPHIA.—(United Press)—Hope for an early settlement in the anthracite region began to fade today when it was reported that the operators and United Mine officials are virtually deadlocked in their negotiations.

The fourth session of the joint conference ended early last night without a decision and the issuance of a terse statement, which in no way intimated what had occurred at the meeting.

Any information regarding the sessions is more or less speculative, but enough unofficial reports have been advanced to make fairly certain that the deadlock over the inability to determine the method of settling future disputes.

**ILLINOIS PEACE NEAR**  
CHICAGO.—(United Press).—Peace in the Illinois coal fields is only a question of hours, it was learned on the highest authority here today.

"The committee of six" finished its work shortly before noon and adjourned to report to individual meetings of the miners and operators.

"Unless there is a bolt in the miners or the operators' meeting an agreement will be signed today," one of the committee of six declared.

Following the individual meetings the committee will meet again. The agreement will then be referred to a joint conference.

**G. O. P. CONVENTION, OPENS**  
DOVER Del.—The Republican state convention assembled at noon today with no evidence of opposition to the nomination of Coleman T. Dupont for United States senator, both for the remainder of the term to be now serving by appointment and the full term beginning March 4, next.

## LONGWORTH RELEASED BY POLICE CHIEF ON INTERFERENCE CHARGE

Ira Longworth, prominent attorney, former Lima mayor and chief B. & O. railway counsel here, knows the thrill of being "pinched."

He will not go to jail, however. Neither will he pay a fine on the charge. It was dismissed Tuesday morning.

Longworth was arrested, charged with interfering with an officer, when he appeared at police headquarters Monday night after the street battle between railway guards and strikers. Chief Lanker considered Longworth was too insistent upon entering the investigation Lanker was making into the shooting.

The attorney's interest was in em-

## Newer Form of Iron Quickly Increases Pep' Strength and Energy

"You cannot be well and strong and full of vigor, force, and power unless your blood is rich in iron," says Dr. James Francis Sullivan, formerly physician Bellevue Hospital (Out-Door Department), New York, and the Westchester County Hospital. "It is your red blood that enables you to resist and overcome diseases that nourishes every organ in your body. Without iron your blood becomes thin, pale, and watery. Poor blood cannot nourish your vital organs and as a result you may have pains in your heart or kidneys, indigestion, headaches and feel all run-down and tired-out."

When your blood lacks iron do not waste your time taking stimulating medicines or narcotic drugs, but directly enrich your blood with the newer form of iron, sold by all druggists under the name of Nuxated Iron which is like the iron in spinach, lentils and apples and is in a form easily assimilated into your blood.

Get a bottle of Nuxated Iron today. Take it for two weeks, and if you have not, like thousands of others, obtained most surprising health, strength and energy, the manufacturers will promptly refund your money. The following local druggists will sell you Nuxated Iron with this "satisfaction or money back" guarantee. Hunter's 3 Stores, Public Drug Store, Red Cross Drug Store.—Adv.

## PLANTS DRAWN BY BIG SAVING

Oakland, Cal., Rapidly Becoming Industrial Center

CHEAP POWER GREAT FACTOR

Advantages Found There Described By Forbes

(By B. C. FORBES)

OAKLAND, Cal. (Special)—Today I talked to the largest audience I've thus far faced in the west. It was at a meeting of the Chamber of Commerce of Oakland, California. There were hundreds there and many others, I was told, couldn't squeeze in.

In this city they certainly are alive to the value of preparing for the phenomenal industrial growth that is destined to come to those cities on the Pacific that will properly prepare to handle enormous growth.

Oakland, situated just across the bay from San Francisco, is a coming center of industry, especially manufacturing.

I was asked why the rapid expansion, and here are some of the facts furnished me:

Oakland and her sister cities of Berkeley, Alameda and Richmond, lying along the east shore of San Francisco Bay, with a present aggregate population of 350,000, are destined to be the industrial center of the Pacific Coast.

The bay towns are characterized by large areas of level industrial land along the Bay Shore, gridironed by the tracks of the Southern Pacific, Western Pacific and Santa Fe, all of which roads have, on the east shore, their physical transcontinental terminal.

Deep water facilities have been and are being developed so that sixteen steamship lines serving San Francisco now also serve the east Bay region.

In last few years most of the large national corporations that have established Pacific coast plants have located these plants in Oakland and the East Bay Cities.

The factors that have brought so large a proportion of westward-moving industries to the east bay cities are:

First, Central location on the Pacific coast. An east-and-west line drawn thru Oakland and extended to the eastern boundary of California divides the population of the three Pacific coast states of Washington, Oregon and California into two absolutely equal parts—2,733,248 each.

The Pacific coast as a whole can be served more cheaply from San Francisco Bay than from any other point.

Second, Cheapness of industrial land, which ranges in price from 3 to 25 cents a square foot.

Third, A climate without extremes of heat or cold, producing it is claimed, not only the highest efficiency of labor in the United States, but over a period of years giving a death rate among the smallest in the United States.

Fourth, The great California hydro-electric power developments furnish San Francisco Bay with the cheapest power in the United States. The average cost of electric power to the consumer in the New England states is 2.32 cents a kilowatt hour; in the Atlantic states, 2.09 cents; in the North Central states 1.82 cents; in California 1.42.

California's water power resources are greater than those of any state in the United States with the exception of Washington.

Four Pacific coast states—Washington, Idaho, Oregon and California—have water power resources totaling 28,145,000 horsepower, or several million horsepower more than all the remaining states combined.

With the diminution of the fuel resources of the country, the water power resources of California and the Pacific coast must necessarily result in relatively greater and greater industrial development in the west.

The proximity of the East Bay cities to the refineries of four big oil companies, headed by the Standard, assures unlimited quantities of fuel oil.

The fact that so many national corporations have built a plant in the east bay industrial center is eloquent testimony to the fact that Oakland furnishes all the elements necessary for successful large-scale industrial operation.

In the industrial development of the United States the time has arrived when, with California growing at three times the rate of the nation, as a whole, and the markets of the Orient waving beckoning hands, it is no longer economically feasible in many lines to serve the Far East and the Far West from Middle West and Atlantic coast factories, especially with relatively high freight rates by rail.

They claim, for example, that there is a saving of \$80 a car by assembling an automobile in Oakland and then shipping it from the east coast.

The Chevrolet plant of the General Motors in Oakland is a store of continuing expansion. Durant is just completing two new plants covering 22 acres; Packard is turning out a new type of motor bus; tire, tire-cord, and tire-fabric mills are in operation, and

Oakland is beginning to call herself the Detroit of the Pacific.

The industrial development of Oakland and the East Bay cities is relatively new. In 1914, Oakland was one of the least industrialized communities of its size in the United States ranking 30th in population and 105th in value of manufactured products. The federal government's 5-year census of manufactures showed that in the period 1914-1919 the number of persons engaged in manufacture in Oakland increased 175.3 per cent, one of the greatest increases shown by any city in the United States. It may be contrasted with such increases as 14 per cent for Boston, 33 per cent for Baltimore and 45.7 per cent for San Francisco.

Oakland and the east bay cities are making preparations in the next decade or so to become a highly industrialized community of a million people. They have now 350,000 population; they have the western plants of more large national industries; they have the advantages of cheap power, cheap land, deep water facilities; three railroads, good housing, health and labor conditions; a bracing climate, plenty of room to expand; a central location on the Pacific coast and the western spirit of achievement.

## CHARGE SPEEDING

Auto Club Investigates Alleged Trap at Lakeview

Don't step on the gas when passing thru or near Lakeview, the warning sounded to members from headquarters of the Lima Automobile Club.

And here is the reason why. An alleged speed trap for snaring motorists is said to be in operation. Four members of the club have already been picked off for alleged speeding.

Their cases will be fought to a finish by counsel hired by the club. Nathan Coon, 220 W. Circular, and Murie Fuiman, 133 S. Collett, two of the alleged speedsters, are to go on trial before Justice of the Peace Cox, at Lakeview, Thursday.

An investigation of the operations of the alleged trap is being conducted by the Lima Automobile Club.

Members are cautioned not to drive more than 30 miles on country roads, not more than 20 in town, and 15 or under in business sections.

MRS. ELIZABETH MARKS, 82, DIES AFTER LONG ILLNESS

Two years illness terminated in the death of Mrs. Elizabeth Marks, 82, at the home of her son, George A. Marks, 737 Grenlawn-av., Monday at 10 p.m. Complications of disease and old age were the causes.

Mrs. Marks is survived by the son, a brother, Henry Harned, Hancock and four grandchildren. Her husband, Jacob Marks, died 27 years ago.

Funeral services will be conducted Wednesday at 2 p.m. at the Marks home, in charge of Rev. Spayde, pastor of Bethany Lutheran church, of which Mrs. Marks was a member. Burial will be in Woodlawn.

LIMA LEGION TO NAME CONVENTION DELEGATES

Delegates and alternates to the state convention of the American Legion in Dayton, September 10 and 11, will be elected at a meeting of William Paul Gallagher Post, No. 96, to be held in Legion headquarters North and Main-sts., Friday night.

A delegation of approximately 200 Legionnaires from Lima and Allen-co are expected to make the trip to Dayton.

The drum and bugle corps representing the post will compete for money prizes and a trophy cup offered for the largest and best post corps attending the convention.

Members of the 37th Division will hold their annual reunion in Dayton, Sunday, September 10.

COMPLICATION CAUSES DEATH OF J. A. VAUGHN

J. A. Vaughn, 53, a carpenter, died Monday night at City hospital, where he was confined for four weeks suffering from a complication of diseases.

He is survived by his widow, Mrs. Libbie Vaughn, 754 E. High-st. Services will be conducted Thursday, at 9:30 a. m. in the M E church at West Minister. Interment will be at West Minister.

## TO TEST SOIL OF ALLEN FARMS

Expert to Examine Samples of Earth, at Fair

Farmers desiring to have soil from their fields tested to determine whether it is acid or not, should take it to the Allen-co farm bureau exhibit at the fair this week.

O. O. Gorman, expert soil tester, will be at the fair each day to test all samples free of charge to the farmers. Demonstrations as to making the tests will also be given at stated intervals.

Many soils in the county are acid and as a result do not produce the crops that might be expected. H. J. Jidge farm agent, says these soils should be treated with limestone.

A demonstration of the market grades of hogs is also a part of the farm bureau exhibit. It is to be found in the pig club tent and is under the direction of C. F. Mertz, manager of the Allen-co Livestock Co., a cooperative farmers organization.

Five grades of hogs are being shown with the maximum and minimum sizes in each grade. It will aid farmers in deciding when to sell their hogs, Mertz says.

## REQUIRES GUARD

Husband and Alleged Rival for Woman in Fight

It was necessary for an officer to "look" M. W. A. Hoffrick, 334 W. Kibby-st., to her home Monday night, that she might get her clothes, police declared.

The bodyguard was required according to records, as the result of a fight between Mrs. Hoffrick's husband, and a man in whose company she is alleged to have been found at McCullough's park.

Hoffrick told police he found his wife at the park with the "other man." They came to blows, the complaint filed indicates. Hoffrick says he was hit with an auto crank.

He was advised by police to swear out a warrant against his alleged assailant and rival.

THEFT OF RED LANTERNS IMPERILS LIMA PUBLIC

Thefts of red lanterns used as danger signals on construction work around the city, have been repeatedly reported to police, records there indicate.

Steps will be taken at once to eliminate such thievery, Chief T. A. Lanker has announced.

Danger arising from missing signals after dark threatens the welfare of pedestrians and motorists, he declares.

Lanker's announcement followed the climax of the situation late Monday, when Charles Evans, superintendent of the water works told officers that lights were missing from many excavations in Lima streets.

CRUELTY IS CHARGED IN DIVORCE PLEA OF WIFE

A blow in the face, alleged to have been delivered by Alfred M. Hollopeter, switchman, 402 S. Elizabeth-st., cooled the love of his wife Annie, she avers in a divorce petition filed in common pleas court.

Mrs. Hollopeter says her husband struck her July 25, and she had him arrested. He was fined in criminal court for the offense.

Besides cruelty, Mrs. Hollopeter alleges that her husband associated with other women. Furniture in their house, she says, was paid for in part by her. She requests a division of property be made.

## ALLEN-CO CANDIDATES FILE EXPENSE ACCOUNTS

All county candidates, with one exception have filed accounts of the campaign expenditures with the board of elections.

J. C. John, Elida, Republican candidates for state representative is the delinquent. And he has a good alibi. He filed his account once, but it wasn't made out correctly and was returned to him for correction.

A. J. Schultz, Democrat for sheriff whose account has been missing, filed within the time limit it was discovered Tuesday. But he filed in the wrong place. His account was left in an insurance office next door to the board offices. He spent \$118.10.

E. L. Roberts, Lafayette, Republican for sheriff filed an account showing expenditures amounting to \$75.

THROWS SELF UNDER WHEELS OF LOCOMOTIVE

CINCINNATI—Edward Bruns, 77, a baker, threw himself under the wheel of a B. & O. locomotive while hundreds of residents of the community looked on here last night.

Brun, according to witnesses dashed on the track in front of an oncoming train and placed his head upon the rail.

There was a grinding of brakes but the locomotive could not be stopped. Bruns' decapitated body rolled down the embankment. Those who witnessed the suicide said they realized what Bruns intended doing too late to reach him.

Pupils Asked to Enroll All pupils who expect to enter Central or South High School for the first time or pupils who are returning to either of these schools after having withdrawn from them prior to the close of school in June 1922, are asked to report at the office of High School that they expect to enter, at one o'clock on Friday, August 25th, 1922. This would include all rural pupils who have promotion certificates from the 8th grade, all pupils who have moved into the Lima City School district from another school district since June 1922 and all other pupils who for any reason have not made definite arrangements for their entrance to High School on September 5th, 1922.

It is proposed to have every thing in readiness so that the school work may start with the opening day of school. The first few days will be of the greatest importance and it will be impossible to enroll pupils on the opening days. So, please, make arrangements for your entrance for your entrance on the above date if you have not done so already.

get excessively high rates of which the consumer in every case was the victim.

The bill, Mr. Pomerene said, would increase the cost of living in the United States by more than \$4,000,000,000 annually. Various blocs in congress, he said, were responsible for the high rates, declaring that instead of "a government of the people, by the people and for the people," the government is becoming "a government of the blocs, by the blocs and for the blocs."

FAVORABLE PROGRAM Describing the taxation legislation of the present congress, Mr. Pomerene declared that it increased the taxes of the larger number of taxpayers and decreased those of the comparatively few with large incomes. The attempt of the Republican finance committees to relieve

higher incomes of all surtaxes in excess of 22 per cent, he said, would have resulted in the man with an income of \$5,000,000, paying no higher surtaxes than the man with an income of \$83,000. After the president had recommended a 40 per cent limit on surtaxes, he said, the senate recommendation of 60 per cent finally was decided upon.

"This was done," Senator Pomerene declared, "in the face of their pledge to lower taxes, which the people had a right to believe meant an equitable reduction of taxes all along the line."

Thru its action in readjusting the excess profits tax, the senator declared congress had placed a heavier tax burden upon corporations making smaller profits and relieving those earning in excess of fifteen per cent.

"What justification," Senator Pomerene concluded, "can be made for increasing the taxes on all corporations earning less than fifteen per cent and decreasing the taxes on all corporate earnings from 15 per cent to 100 per cent and over. The American people are furious to know."

## CITY FRANCHISES NOT READ

Action on Franchise is Delayed by Commission

## SEWER ORDINANCE TABLED

New Clerk Hired May Straighten Street

Neither the street railway franchise nor the electric power rate ordinance were considered by the city commission at its meeting Monday night.

It was expected that the street railway ordinance would be up for its second reading and final passage but the absence of Earl Rohn, city commissioner, is believed to have stopped its reading.

Commissioners are also of the opinion that both the power and the street railway problems should be settled at the same time and may defer consideration until both are ready.

An ordinance directing the construction of the Michigan-av sewer which was tabled at the August 14 meeting was again tabled Monday night. An agreement by the property owners to pay for the work has been lost, it was announced.

Tabled of the ordinance will make it impossible to open bids on the job at the same time those for the S. Main-st and Watt town and Bellefontaine-av are opened. The work may be delayed until next year, it was said.

**PAVING IS APPROVED**  
Paving of Brice-av from Cole-st to Kenilworth-av and a sewer on Park-av were approved by the city commission. Ordinances to proceed with the work were passed.

Ordinances authorizing the issuance of \$46,700 street bonds, the payment of \$1,700 for road tax, the payment of \$6,000 for insurance premiums, the hiring of a filing clerk at \$100 a month and the payment for the drawing of sewerage plans by Fuller & McClintock were passed.

Plans for the straightening of Woodlawn-av from the Spencerville rd to the Allentown-rd were shown the commission by Vaughn Miller, city engineer. It is planned to eliminate a number of jogs in the street.

Several gradual turns may be

necessary to save a number of trees on the west side of the street south of Elm-st. Miller said. Several plans have been suggested, one of which will be followed, he stated.

Boils, Pimples, Blisters on Skin Often Caused by Constipation or Indigestion

When the stomach is in such a bad condition that the food sours and ferments and when the bowels are torpid and clogged with the foul matter that should pass away, it is certain that the poisons must go into the system thru the skin as well as thru the natural channels. So pimples and boils appear, the skin becomes rough and irritated, often serious eczema is the result of acid stomach and lack of bowel action. All this can be avoided and it present can be made to pass away and the skin cleared up and made healthy by a course of Nerv-Worth. The good effects will be noticed even in very serious cases before the first bottle is taken up. It aids indigestion, stops gases, regulates the bowels, soothes nervousness and tones up the system generally. Mrs. Daley of Hagerstown, Md. had a bad case of indigestion and bowel trouble and her blood got in a very bad condition, but she soon eradicated the trouble with a few bottles of Nerv-Worth. Any druggist has it and sells it at one dollar a bottle. You will always find it in the drug stores in this city, and every druggist is authorized to give the money back if the first bottle is not satisfactory in results.

Nerv-Worth is sold and recommended by Hunter's 3 Stores, Lima; C. M. Young, Van Wert; Garrison's Drug Store, Lima; Drug Store, Kenton; Powell's Pharmacy, Bellefontaine; Miners', Defiance; Klug & Stallkamp, Delphos — Adv.

## Where Barnum Went Wrong

FOR twenty years or so we've all been hearing Barnum's classic remark—"The public likes to be fooled."

The public has always enjoyed this biting comment, because it came from America's best loved showman.

But probably many of us had our fingers crossed even as we nodded approval.

The past two years in the tire business has been a pretty good test of Barnum's famous saying.

If the public liked to be fooled, here was its heart's content. "Big Discounts" to the right. "Special Sales" to the left. "Bargains" on every corner.

Certainly no man who kept his eyes and ears open missed seeing the attempt to fool the public by drawing its attention away from the essentials of real value.

Why did car-owners refuse to lower their quality standards—why did more people than ever go to quality tires?

Especially U. S. Royal Cords, which they used more and more to measure the market when they wanted a test of value.

In one way of speaking, Royal Cord

Current prices on United States Passenger Car Tires and Tubes are not subject to Federal Excise Tax, the tax having been included.

United States Tires are Good Tires

Copyright, 1922 U. S. Tire Co.

leadership grew out of the confusing conditions put upon the tire-buyer.

The car-owner, being a practical person, as a rule, did the practical thing.

He bought U. S. Royal Cord quality—and stuck to it.

The legitimate dealer lined up with the U. S. Royal Cord policy—and stuck to it.

The makers of Royal Cord Tires said "Go to a legitimate dealer"—and stuck to it.

Perhaps Barnum intended his remark about the public to be taken with a grain of salt. Note that he always gave his customers a whale of a money's worth.

## ANOTHER VISIT OF YEGGS

LIMA has just experienced another visit from yeggs. They drove into the center of the city in automobiles and staged one of the most daring robberies on record here, escaping unmolested with cash and merchandise amounting to several thousand dollars.

Already criticism of the police department has been heard. There are those always ready to fix blame and offer suggestions.

So far as the most recent robbery is concerned, we fail to see that the police department, altho admittedly below the number of men needed to efficiently police the city, can be censured. The robbery would have occurred had the city had twice the number of men on the force.

The theft here evidently was the work of a well organized band of experts. It was cleverly planned and executed in a manner which would almost preclude detection.

It is common for police departments to be criticized after unusual daring on the part of thieves, but in most cases it is their daring which makes their plans successful. Lima probably needs more policemen. This has been the contention for the last several years, but the city is in such condition, financially, that it is next to impossible to employ them now. Indications are that a way must be found to do so in the near future, however.

## THE COUNTY FAIR

THE Allen-co fair got under way today. Hundreds and thousands of people were on hand to witness the opening and enjoy the exhibits and entertainment provided. It was a real, old-fashioned county fair day.

Before the week is over, it is expected that all records will be broken for fairs in this county. And they should. The fair this year is bigger and better than ever. It has been recommended as such and indications today were that it has not been misrepresented.

The county fair is an institution from which the rural and city dweller may draw much. It is an institution with which it would be folly to dispense. There is nothing that can take its place. There is something about it, its races and livestock and grain and food exhibits and whatnot that makes it appreciated year after year. It never grows old.

Those responsible for the fair this year are to be congratulated. The excellent exhibition will be greatly in favor of the bond issue for the purchase of permanent grounds when the voters go to the polls in the fall.

## OIL COMPANIES

THE various Standard Oil companies own only 34 per cent of the oil refining capacity of United States and Mexico. They produce only a fifth of America's crude oil. So says R. L. Welch, secretary of American Petroleum Institute.

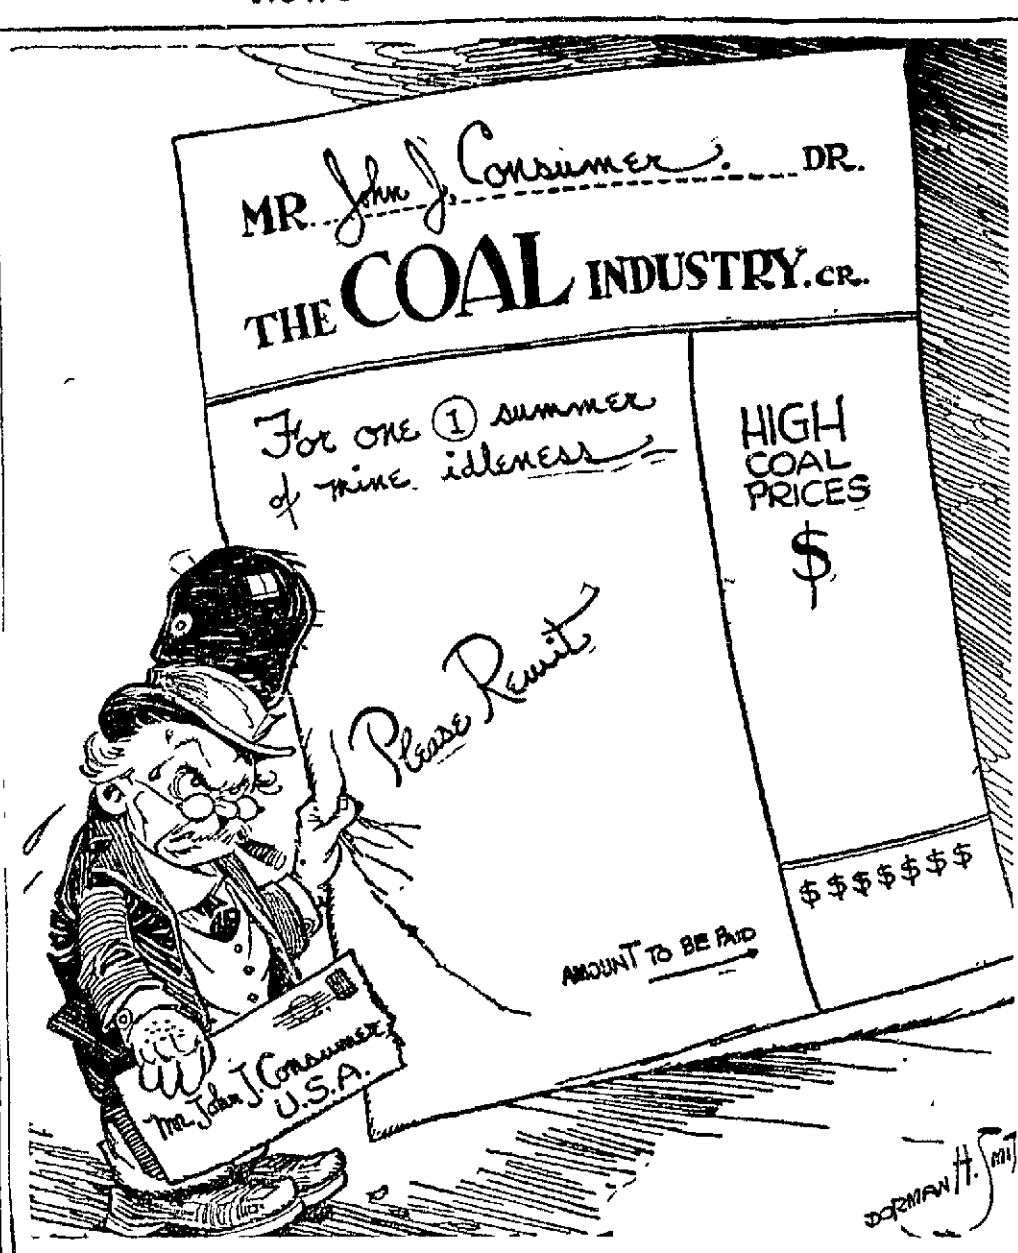

On this basis, independent oil interests combined are more powerful than the Standard, with cash investment twice as big. Standard Oil has been accused of many things, never of inefficiency.

## COOL OR WARM

## KEY TO SUCCESS

GALSWORTHY, international writer, says Maupassant "taught writers what to leave out."

O. Henry was the same. His fame depends as much on what is left out as what he wrote.

The principle applies to most lives. The things we don't do are as important as the things we do. Success is easy for the person who develops judgment that enables him to omit futile effort. Some of the greatest successes are chronically lazy.

## CANADA'S FUTURE

G. H. LOCOCK, British industrial expert, is worried about this: "Six hundred branch factories have been established in Canada by United States firms, as compared with 20 British. United States factories are springing up in Canada at the rate of one a week."

To anyone with vision, this is better than a ouija board for forecasting Canada's future.

## HEALTH TALKS

Common Sense Ways to Keep Well

## SCARLET FEVER PERIL

Scarlet fever is another children's disease. Anyone listing all the diseases that children are heir to might well wonder how they manage to keep as healthy as they do.

I have heard more than one critic call health columns, such as this, the work of medical alarmists. Perhaps this is so, yet practically all of them—and this one is no exception—are compiled with the idea that "forewarned is forearmed." If all the health columns in all the newspapers in the United States served to lead only a few mothers to be more careful of their children's habits, they would have served a very useful purpose. We know, however, that thousands of people take advantage of such health hints, so that our work, we feel, is not wasted.

This is somewhat aside from the subject of scarlet fever, yet it seemed apropos, as it is one of the diseases that mothers must be especially watchful for.

It is not so much the fever, nor the rash, that are dangerous, but rather the complications which may follow.

The glandular swelling sometimes extends into the windpipe, cutting off the breath. Abscesses of the ear, resulting in deafness, are common. Kidney inflammation or Bright's disease, accompanies 20 per cent of the cases. After the fever the patient is very susceptible to tuberculosis and pneumonia.

People of every age are liable to the disease, but 50 per cent of the deaths occur among children under 10.

The cause of scarlet fever is obscure. There is no known preventive, like vaccination. There is no special treatment that will combat it effectively.

The first symptoms are nausea, sore throat, headache, backache and high fever, the patient often becoming delirious. These symptoms, with the exception of nausea, continue until the fourth day.

The rash appears first in the mouth and throat. Soon it spreads to the neck and chest, then to the hands and feet, and by the third or fourth day it has covered the entire body. This rash, which is a congestion of the blood vessels, is in the skin, not on the surface. It subsides after the seventh or eighth day and the peeling process begins, covering an additional period of 10 days.

Because of the danger of resulting complications the treatment of the patient during and after illness cannot be too careful.

Contagion lies in the sneezing and coughing rather than in the scales or peeling, as is commonly supposed. The body discharges must be disposed of wisely. Burning and disinfecting everything that leaves the body or that comes in contact with it, is the only safe course.

## POEMS YOU WILL ENJOY

By BERTON BRALEY

A TONIC  
When life seems devoid of all color,  
And totally lacking in zest,  
When things "simply couldn't be duller."

I go on a bit of a quest,  
And down where the slums are  
I find a man who can hardly abide,  
I fill up the seats of my flivver  
With children—and go for a ride.

With six, eight, or ten of them, may-be,  
Or all that the flivver will bear,  
From twelve-year-olds down to the baby,

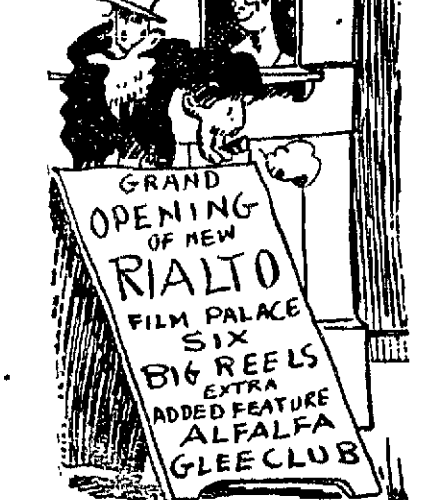

I take them out into the air;  
And as we drive on where the breezes  
Can fan them for miles upon miles,  
Each prospect they gaze upon  
pleases,  
And nothing whatever is vile.

So, hearing their laughter and chatter,  
And seeing their faces aglow,  
I wonder what could be the matter  
To make me think living was slow!

Their bliss ends my whining and  
Pouting,  
And I say my cares up on the shelf,  
And while they're enjoying their outing  
I'm having a picnic, myself!

came in three minutes. Accepted the lift from one whom I know not, tho he works for Healthier Poling.

This day dawned in my tweeds, strolled southward to Mam-Spring. And took the elevator in the Jones tower for a birds-eye-view of the village. This historic block on the east and north corner is one of the show-places. When frynd's come, take them hence to give better realism to our greater Lima.

Great hub-bub over a robbery. Page Chief Lanker. White gloves and gentlemen's leggings seeming no good for criminal catching. Here the biggest haul ever known; with a truck to carry it away. And the police all a-dream from their arduous work of the long Sabbath. Once upon a time in the moon shine we met a patriot-man making his rounds. But such old fashioned policing is all anon. Nowaday they patrol in a Ford. So, how could they hear glycerine explode?

To the Jack Yoshi place for a snack. Cost me 42c against some beef, a potato and a sweet. Out at the Ohio Steel when they want to invoice the Africans and the Italians they serve spaghetti and chicken. All the Latins rush to the spaghetti side, and all the Africans to the chicken side. So, it's easy to take the census. Like Ed Foster won votes in the old Sixth ward with watermelon.

At a luncheon club, when the speaker stopped for want of language, it was a baseball fan who yelled: "Put in Yellow Horse." Over to Bill's for a tim, and found Mel newly come from Canada, tanned and fresh. Ollie Selfridge, the banker, along with the North Side, complaining of our news-

boys. Ollie against their tramping his radish beds; and the North Side against their religious services at four a. m. using the Bible too literally. Frank Snyder, chef superior of the Manhattan beanyery, strolled out to Hoover park and heard the kiddies holding services on the water.

In the mails, greetings from a lady who likes this column. That makes it an even race—one for and one against. What will the next ballot bring? Came a salute from Sister Marge who has been going thru Henry Ford's cannery. Finding they are breeding 5,460 little Fords each day.

Waved to Otis Lippincott, one of the original disciples of St. Wheeler, and among the best farmers in this county. The only hopeful signs for the g. o. p. at the next Olympiad is today's editorial in the Wall-st Journal. If this shuffleboard of finance is against him, Warren may have a chance. Calling congress together to cure a strike is albert, like sending for a plumber to pull your tooth.

Yet, it's a fyne old world; the weather balmy, the roads inviting and no installments due for twenty days. So, home to dine alone on a fruit cup a chop, with hashed browned potatoes, corn a la loud needle, and fresh deep apple pie for the sweet.

In the evening, finished Mrs. Burnett's "Robin," the sweetest, most glorious tribute to innocent girlhood, and faith in the good God over us, I ever did read. A classic the equal of her Little Lord Fauntleroy. Ate an egge sandwich of Butternut bread, with a siver of Irish bacon, drinking a benker of grapejuice sweetened with Alkol-rub, and to bed.

## SUSIE SMART'S ADVICE

Dear Miss Smart—  
I am desirous of entertaining in an informal way for a certain number of friends and family. How would you suggest entertaining for such an event the crowd of course being a mixed one? Also suggest something good and new to serve, and the manner in which it should be served. Thinking you kindly, I am yours truly,  
JOHN W. CENTREMAN

There are so many delightful ways in which to entertain a mixed crowd, especially at this season of the year. If any of the party have cars, why not motor out to one of the many delightful spots near the city and enjoy a picnic supper? You could serve the regular menu, of assorted sandwiches, pickles, olives, salad, cakes, fruit or you could have the entertainment in the nature of a steak or veal roast, which latter is always a popular method of entertaining a party of young people.

A porch or lawn party is easily arranged and is always attractive. Place small tables about the lawn and porch, with cards for those who wish to play. Refreshments can be very simple, consisting of sandwiches, salad and fruit punch, or ice cream and wafers.

If you have an indoor party with dancing, serve a buffet luncheon having the various refreshments tastefully arranged on buffet or table and having each guest help themselves. Serve chicken salad, nut-bread sandwiches, assorted cakes and parfait, with some sort of feed drink.

Dear Miss Smart—  
I am a girl of seventeen and am of normal height, weight and measurements, with the exception of my waistline, which I would like greatly to reduce. Do you have a good exercise to accomplish this?

WORKED  
This exercise is highly recommended for waist reduction. Place the heels together, raise the right arm over the head and let the hand fall over the left ear. Bend the head and the body at the waistline to the left, and stretch the left arm down as far as it is possible to do so, the right arm still over the head. Do not bend knees. Do this from twenty to thirty times morning and night, and you will soon see a decided change in your waistline measurement.

## LEARN A WORD A DAY

TODAY'S word is—CONGLOMERATE  
It's pronounced—con-glom-er-ate, with accent on the second syllable.  
It means—that which is gathered into a ball or mass, a collection, a heaped-together accumulation.  
It comes from—Latin "conglomerare" to roll together.  
It's used like this—"Critics of the wide-open political primary say recent tests have consisted in submission to the voters of vast conglomerates of names, from which the average man found it hard to make intelligent selections."

## A Hint of Mutiny as Love Nests Are Discussed

By ZOE BECKLEY

### BEGIN HERE TODAY

#### STORY SYNOPSIS

Afterward, this refrain is ringing in the delighted brain of CONNIE DALE on her wedding day, as she leaves the church on the arm of her young husband.

FRED DALE, the successful salesman of the Gypsy Motor Company, has just been appointed to the New York sales office of the company.

Just as the young couple are driving off in a new Gypsy car, Uncle Dale, an old sea captain remarks: "Good luck to the marriage ship and may the weather be no stormier than to put zest into the voyage."

GO ON WITH THE STORY  
Connie laughed happily. "Oh, we're not going to be at sea, Uncle Sid. It's to be love in a cottage."

"How about a snappy little kitchenette apartment?" grinned Fred, starting the car. "We're to be in New York, you know."

"No sir!" Connie's firmness made Uncle Dale smile. "All my life I've dreamed of a white colonial cottage with solid green shutters with little trees cut into their tops, and white ruffled curtains, and pink rambling roses and an old-fashioned garden with hollyhocks and—"

"And an electric elevator to take you up to your tenth-floor cottage!" "I say no, Mr. Frederick Collier."

Mr. and Mrs. Ralph Hayes, Brice-av., were tendered a delightful surprise at their home Monday evening by a group of friends. The affair celebrated the birthday anniversary of Mr. Hayes. Mr. and Mrs. T. D. Hubbard held high score at the close of the evening of cards.

Those present were: Mr. and Mrs. Elmer Barth, Mr. and Mrs. R. D. Hubbard, Mr. and Mrs. Frank Chew, Mr. and Mrs. J. G. Atkinson, Mr. and Mrs. J. H. Allgire and Mrs. C. S. Jones.

Mr. and Mrs. William Noonan, Barbara Ann Court, W. Market-st., have motored to New York city to be the guests of Mr. Noonan's mother.

The Daughters of Veterans will hold an important meeting at the Memorial Hall Tuesday evening.

Miss J. S. Myers and daughter, Virginia and Mrs. Francis Shoner, 606 W. Market-st., left Tuesday morning for Napoleon to visit for the remainder of the week.

Mrs. W. F. Wells and daughter, Miss Ruth, W. Elm-st., will leave the latter part of the week for New York city, where they will spend several weeks.

Mrs. Levi Reichelderfer and daughter, Miss Gretchen, will return to their home Saturday, after a pleasant visit here with her mother, Mrs. Spencer D. Downing, W. Spring-st.

Mrs. J. M. Gallaspe and Mrs. Glennes Woodruff will return Wednesday from Greensburg, where they have been visiting with Mrs. Robert Haas, formerly Miss Lura Mae Gallaspe.

Dale, "no living in a rookery for your wife. Why I'd sooner try to live in a bureau drawer."

"Avast there!" Uncle Dale's big voice cut in laughingly. "You aren't launched yet, and already there's mutiny aboard!"

"I'll quell it!" And Fred kissed Connie fiercely, to the delight of their assembled world. "And now, giddap, Gypsy, get a wiggle on, G'by, folks, we're off!"

"Alone at last!" sang Connie as Gypsy, hauling a trailer in which

rode the makings of a little camp, hit the high road. "Oh, don't drive too fast, Fred—ouch, this road's bumpy!"

Fred was too crammed with joy to regard the warnings. "Here we are in show form, off to new territory, dead sold to each other, satisfaction guaranteed and a bright year ahead!"

"Heavens, Freddie, you talk as if marriage was a selling campaign!" "Well, we aren't selling our marriage, Darlint, but this here marriage of ours is going to help me sell a lot of Gypsies!" You know what selling automobiles is in a burg like New York—half the game is selling yourself. And since one-half of me is you, and since you're the neatest and sweetest and prettiest and smartest wifeliest in automobile row, I'll see that my customers and prospects don't overlook my one best bet.

Connie pondered.

"You're fooling, of course, dear. But I thought you meant our house to be a sort of annex to your salesrooms, I'd—"

Without taking his eyes from the road, Fred leaned his cheek against his wife's.

"Arrow (collar) indicates spot to be kissed," he stage-whispered. "Quick, woman, before you motorist approaches!"

Connie did as she was bid, and forgot her tiny worry.

# THE RED HOUSE MYSTERY

By A. A. MILNE

(Continued From Our Last Issue)

"Was it the collar you were looking for in the cupboard?" said Bill eagerly.

"Of course. 'Why no collar?' I said. For some reason Cayley considered it necessary to hide all Mark's clothes; not just the suit, but everything which he was wearing, or supposed to be wearing. But he hadn't hidden the collar. Why? Had he left it out by mistake? So I looked at the cupboard. It wasn't there. Had he left it out on purpose? If so, why?—and where was it? Naturally I began to say to myself, 'Where have I seen a collar lately? A collar all by itself?' And I remembered—what, Bill?"

Bill frowned heavily to himself, and shook his head.

"Don't ask me, Tony. I can't—By Jove!" He threw up his head. "In the basket in the office bedroom!"

"Exactly."

"But is that the one?"

"The one that goes with the rest of the clothes? I don't know. Where else can it be? But if so, why send the collar quite casually to the wash in the ordinary way, and take immense trouble to hide everything else? Why, why, why?"

Bill bit hard at his pipe, but could think of nothing to say.

"Anyhow," said Antony, getting up restlessly, "I'm certain of one thing. Mark knew on the Monday that Robert was coming here."

CHAPTER XVIII

The coroner, having made a few commonplace remarks as to the terrible nature of the tragedy which they had come to investigate that afternoon, proceeded to outline the case to the jury.

Antony did not expect to learn much from the evidence—he knew the facts of the case so well by now—but he wondered if Inspector Finch had developed any new theories. If so, they would appear in the coroner's examination, for the coroner would certainly have been reached by the police as to the important facts to be extracted from each witness. Bill was the first to be put thru it.

"Now, about this letter, Mr. Beverley," he was asked when his chief evidence was over. "Did you see it?"

"I didn't see the actual writing. I saw the back of it. Mark was holding it up when he told us about his brother."

"You don't know what was in it, then?"

Bill had a sudden shock. He had read the letter only that morning. He knew quite well what was in it. But it wouldn't do to admit this. And then, just as he was about to renege himself, he remembered: Antony heard Cayley telling the Inspector.

"I knew afterwards. I was told. But Mark didn't read it out at breakfast."

"You gathered, however, that it was an unwelcome letter?"

"Oh, yes!"

"Would you say that Mark was frightened by it?"

"Not frightened. Sort of bitter."

and resigned. Sort of 'Oh, Lord, here we are again!'

There was a titter here and there. The coroner smiled, and tried to pretend that he hadn't.

"Thank you, Mr. Beverley."

The next witness was summoned by the name of Andrew Amos, and Antony looked up with interest, wondering who he was.

"He lives at the inner lodge," whispered Bill to him.

All that Amos had to say was that a stranger had passed by his lodge at a little before three that afternoon and had spoken to him. He had seen the body and recognized it as the man.

"What did he say?"

"Is this right for the Red House?" or something like that, sir."

"What did you say?"

"I said, 'This is the Red House. Who do you want to see?' He was a bit rough-looking, you know, sir, and I didn't know what he was doing there."

"Well?"

"Well, sir, he said, 'Is Mister Mark Ablett at home?' It doesn't sound much put like that, sir, but I didn't care about the way he said it. So I got in front of him like, and said, 'What do you want, eh?'

HE GAVE HIS EVIDENCE CAREFULLY.

And he gave a sort of chuckle and said, 'I want to see my dear brother Mark.'

"Well, then I took a closer look at him, and I see that praps he might be his brother, so I said, 'If you'll follow the drive, you'll find come to the house. Of course I can't say if Mr. Ablett's at home.' And he gave a sort of nasty laugh again, and said, 'Fine place, Mister Mark Ablett's got here. Plenty of money to spend, eh? Well, then I had another look at him, but before I could make up my mind, he laughed and went on. That's all I can tell you, sir."

Andrew Amos stepped down and moved away to the back of the room or did Antony take his eyes off him until he was assured that Amos intended to remain there until the inquest was over.

"Who's Amos talking to now?" he whispered to Bill.

"Parsons. One of the gardeners. He's at the outside lodge on the Stanton road. They're all here today. Sort of holiday for 'em."

"I wonder if he's giving evidence, too," thought Antony.

He was. He followed Amos. He had been at work on the lawn in front of the house, and had seen Robert Ablett arrive. He didn't hear the shot—not to notice. He was a little hard of hearing. He had seen a gentleman arrive about five minutes after Mr. Robert.

"Can you see him in court now?" asked the coroner.

Parsons looked round slowly. Antony caught his eye and smiled.

"That's him," said Parsons, point-

ing. Everybody looked at Antony.

"That was about five minutes afterward?"

"About that, sir."

"Did anybody come out of the house before this gentleman's arrival?"

"No, sir. That is to say I didn't see 'em."

Stevens followed. She gave her evidence much as she had given it to the Inspector. Nothing new was brought out by her examination. Then came Elsie. As the reporters scribbled down what she had overheard, they added in brackets "Sensation" for the first time that afternoon.

"How soon after you had heard this did the shot come?" asked the coroner.

"Almost at once, sir."

"Were you still in the hall?"

"Oh, no sir. I was just outside Mrs. Stevens' room. The house-keeper, sir."

"You didn't think of going back to the hall to see what had happened?"

"Oh, no, sir. I just went in to Mrs. Stevens, and said, 'Oh, what was that?' frightened-like. And I said, 'That was in the house, Mr. Stevens, that was.' Just like something going off, it was."

"Thank you," said the coroner. There was another emotional disturbance in the room as Cayley went into the witness-box; not "Sensation" this time, but an eager and, as it seemed to Antony, sympathetic interest. Now they were getting to grips with the drama.

He gave his evidence carefully, unemotionally—the lies with the same slow deliberation as the truth. Antony watched him intently, wondering what it was about him which had this odd sort of attractiveness. For Antony, who knew that he was lying, and lying (as he believed) not for Mark's sake but his own, yet could not help sharing some of that general sympathy with him.

"Was Mark ever in possession of a revolver?" asked the coroner.

"Not to my knowledge. I think I should have known if he had been."

"You were alone with him all that morning. Did he talk about this visit of Robert's at all?"

"I didn't see very much of him in the morning. I was at work in my room, and outside, and so on. We lunched together and he talked of it then a little."

"In what terms?"

"Well," he hesitated, and then went on, "I can't think of a better word than 'necessity'."

"You didn't hear any conversation between the brothers when they were in the office together?"

"No. I happened to go into the library just after Mark had gone in, and I was there all the time."

"Was the library door open?"

"Oh, yes."

"Did you see or hear the last witness at all?"

"No."

"Would you call Mark a hasty-tempered man?"

Cayley considered this carefully before answering.

"Hasty-tempered, yes," he said. "But not violent-tempered."

"Was he fairly athletic? Active and quick?"

"Active and quick, yes. Not particularly strong."

"Yes. One question more. Was Mark in the habit of carrying any considerable sum of money about with him?"

"Yes. He always had one 100 pound note on him, and perhaps ten or twenty pounds as well."

"Thank you, Mr. Cayley."

Cayley went back heavily to his seat. "Damn it," said Antony to himself, "why do I like the fellow?"

Antony Gillingham

Again the eager interest of the room could be felt. Who was this

stranger who had got mixed up in the business so mysteriously?

Antony smiled at Bill and stepped up to give his evidence.

He explained how he came to be staying at the "George" at Woodham, how he had heard that the Red House was in the neighborhood, how he had walked over to see his friend Beverley, and had arrived just after the tragedy. Thinking it over afterward he was fairly certain that he had heard the shot, but it had not made any impression on him at the time.

"You and the last witness reached the French windows together and found them shut?"

"Yes."

"You pushed them in and came to the body. Of course you had no idea whose body it was?"

"No."

"Did Mr. Cayley say anything?"

"He turned the body over, just so as to see the face, and when he saw it, he said, 'Thank God.'"

Again the reporters wrote "Sensation."

"Did you understand what he meant by that?"

"I asked him who it was, and he said that it was Robert Ablett. Then he explained that he was afraid at first it was the cousin with whom he lived—Mark."

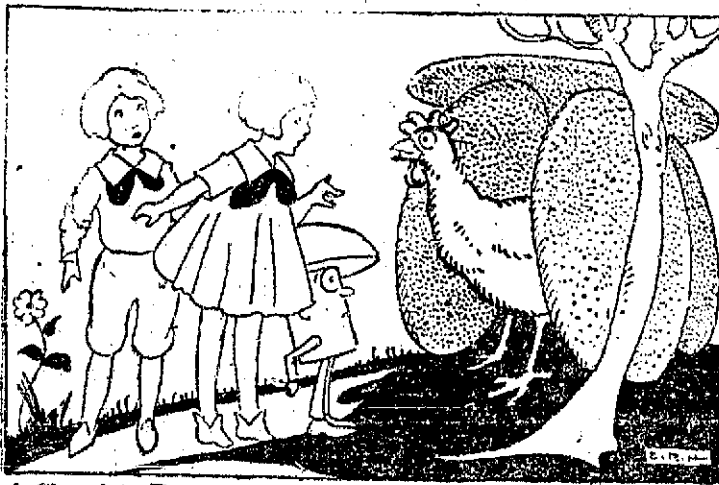

"Yes. Did he seem upset?"

"Very much so at first. Less when he found that it wasn't Mark."

## NANCY AND NICK FIND CHOCOLATE ROOSTER

By Olive Roberts Barton

A Chocolate Rooster came out of a coop made of sugar cookies.

"Hello," said a voice when Nancy and Nick and the Magical Mushroom had landed in the middle of the Tinkly-Winkle Star. "Who are you and what do you want?"

"We're after Flap-Doodle, the purple fairy who flies with his ears," said Nancy. "He stole the Fairy Queen's wand."

"Oh, ho!" answered the voice. "Well, he never told me a word about it!" And a Chocolate Rooster came out of the coop made of sugar cookies, with a saucy strut.

"Oh, do you know him?" asked Nick eagerly.

"Well, I should say!" answered the Rooster. "I'm his lord high counselor. He's the boss of this story, you know. In fact, I'm often mistaken for him, being so handsome and all, only I am orange instead of purple, and my ears are not quite so large and fine as his."

"Orange?" cried Nick. "Ears!" cried Nick. "Certainly!" the Chocolate Rooster assured them with dignity. "All

## COAL PROBE BILLS ARE REPORTED

Action Taken by House and Senate Committees

IMPARTIAL BODY DEMANDED

Harding Opposes Special Representatives on Board

WASHINGTON. (Associated Press.)—While the senate labor committee was taking the first formal action toward creation of the coal fact finding commission, recommended by President Harding, the president let it be known today that he was disposed to insist that the investigating body be made up of impartial representatives exclusive of the public without special representation for either mine operators or employees.

A bill for a commission on which the president would be free to choose representatives of the operators, miners or the public as he saw fit, was favorably reported by the senate committee.

At the same time the house interstate commerce committee, working independently refused to strike from its tentative bill a provision which would expressly prohibit membership on the commission by any person having any interest in or connection with the coal industry.

The house committee's bill also was favorably reported after a number of changes were made from the form in which originally was drafted by Chairman Winslow. As perfected it provides for a commission of nine members, where the measure drawn by the senate committee specifies that the membership shall be five. In each bill the commission is provided sweeping powers of investigation.

## ELIDA BOY WINS

Champion Speller in County Fair Contest

Lowell Baxter of Elida, was declared the champion speller among children of the Allen county system of schools by winning the spelling bee Tuesday at the fair. Hoover came to Lima to search for them. He has asked police assistance.

## ATTEMPT IS MADE TO ENTER QULINA THEATRE

Windows battered and cut by instruments of some sort, pointed to an attempt by unidentified parties to enter the Qulina theatre, Monday night, a report at police headquarters indicates.

Considerable trouble with youngsters who annoy patrons and employees, reported from the Qulina by the management, leads police to believe that boys are responsible. They failed to gain entrance to the show house.

## KILPATRICK INDORSED AT DEMOCRATIC MEETING

YOUNGSTOWN — William B. Kilpatrick, former mayor of Warren, was unanimously indorsed as Democratic candidate for representative in congress in the nineteenth district by the Mahoning county Democratic convention here last night. Kilpatrick is slated to replace Charles J. Jackson of Youngstown, who was nominated at the primaries but has signified his intention of withdrawing. One of the Democratic organizations in the three counties of the district—Mahoning, Trumbull and Ashtabula—will meet soon to decide finally upon a candidate.

## RAILROAD PEACE PLAN HIT

(Continued From Page One.)

The Association of Railway Executives where they will vote their answer to measures proposed by the big five brotherhoods as a practical means of settling the seniority question and ending the strike.

The response of the carriers to the call sent out by T. Dewitt Cyster, head of the association, led officials today to predict that every member road, including 201 class 1 lines, with over 390,000 miles of track, would be represented when the conference began.

Early arrivals would not comment on the situation, asserting that the pledge of secrecy exacted of both sides when the executive association's committee of nine concluded sessions with the big five brotherhood leaders Friday night, had been so well maintained as to leave them uninformed of latest developments.

Heads of the sixteen railworkers' unions, including the big five of the running trades and others of the stationery crafts, were expected to resemble here today. Altho it has not been determined that the joint conference cannot be resumed before Thursday, they agreed to be in the city, within call, tomorrow, when the association of executives is in session.

## REMOVAL SOUGHT

WASHINGTON. (Associated Press.)—Representative Hill, Republican, Maryland, today addressed a letter to Secretary Mellon requesting the immediate removal of Federal Prohibition Commissioner Haynes, who Mr. Hill charged "engaged in defrauding the United States government in that he is using and causing to be used the official mail of the treasury department for the sending out of personal political propaganda in the interest of himself and his associates, the Anti-Saloon League."

## MYSTERY CAR IS BEING SOUGHT

Police Hope to Find Clue to Feldman Robbery

A mystery automobile of an expensive type, parked in the Central garage at the rear of the Faurer Opera house, between the hours of midnight and 4 a. m. on the night of the Feldman robbery, is being sought by Lima police in their attempt to establish the identity of the gang that made away with \$10,000 in cash and furs stolen from the Feldman store, Sunday morning.

A large, heavy man whose description is said to suggest the appearance of a professional bandit, brought the car into the garage at approximately midnight, according to Ralph Shank, garage attendant at the time.

He insisted that the machine be ready for use again by 4 a. m., Shank said. Promptly at 4 o'clock, the machine was removed from the garage, Shank told. "is employer, Harold Fockler, it disappeared immediately," Shank said, and hasn't been seen since.

Shank's story is linked with that of Lee Murdock, employee of the American Railway express, who passed the Feldman store shortly after midnight Saturday. Murdock told employees of the Feldman store that he had seen mysterious strangers who were apparently stationed along the block between High and North-sts on Main.

It is believed that the persons who attracted Murdock's attention were guards who had been stationed by the bandits.

Members of the Lima police department who had been patrolling that area of the business district, reported seeing strangers in the vicinity of the store, confirming Murdock's story.

The visit of an insurance agent to the Feldman store recently, for purpose of inspection, police declared Tuesday, has been established as bona fide.

COAL SUPPLY WILL BE SOUGHT AT CONFERENCE

Activities of the district fuel administration will depend upon the meeting of operators and consumers to be held at Columbus Wednesday, H. L. Breckenridge, district administrator, said Tuesday.

At the present time it is practically impossible to obtain coal unless the consumer has a contract with an Ohio producer or is able to establish a direct connection, he says.

It is hoped that it will be possible to reach some agreement at the Wednesday conference which will place a quantity of coal at the disposal of the state to be used in aiding industries which cannot obtain coal in any other way.

## FISHEL SPEAKER

Tells Kiwanians of Conditions in Europe Today

Depreciation of German money is one of the greatest problems in Europe today, Simon Fishel told members of the Kiwanis club at their luncheon at the Hotel Argonne Tuesday noon.

At one place he was able to buy both wine and dine a party of five for about \$2 in American money, so great was the depreciation of the German marks, he said.

Morale of the German people is rapidly declining and their religious and civic life is suffering as a result. Both Switzerland and Germany are living off the tourist, he said.

Twenty-one children are now enjoying the hospitality of the Kiwanis fresh air farm, the Kiwanians were told. They will all be taken to the Allen-co fair Wednesday.

Edward Siferd and Ollie DeWeese were appointed a committee to arrange for the participation of the club in the Kiwanis state convention at Cincinnati in September. A campaign to have a member of the Lima club chosen as district governor will be started, it was announced.

ROBBERY CHARGED

J. F. Cowden, 50, hollermaker 303 E. Vine-st, was placed under arrest by Lima police, Tuesday, on charge of highway robbery.

His arrest came as the result of a request from Ottawa authorities, that he be held for them.

Cowden is alleged to have participated in holding up Charles Collett, Cloverdale, recently and relieving him of \$53 in cash.

The hold up is said to have been committed near Ottawa.

## 5-WAY SCRAP IN NATIONAL

New York, Pittsburgh, St. Louis,  
Chicago and Cincinnati all have a  
chance to win the National league  
penant. They have all taken  
their turn in looking like the dark  
horses and right now the Cubs are  
making a great bid. The hitting of  
Grimes, Hollocher and Miller and  
good pitching from a fine bunch of  
young hurlers are keeping the Cubs  
in the race.

Chicago won seven out of eight  
games last week, while the Cards  
and the Pirates are cracking. The  
Cards dropped five out of six games  
and the Pirates lost six out of eight  
games. Cincinnati breezed along  
winning four out of five games and  
closing in on the leaders.

Pat Moran says he could win the  
penant with some good pitching  
and the same problem applies to the  
other contenders. The chances of  
the Giants, who won four of their  
six games last week, depends en-  
tirely on what McGraw gets out of  
his pitchers.

# BOTH NEW YORK CLUBS SHAKE OFF RIVALS

## YANKS GOING BETTER THAN GIANTS

BY HENRY L. FARRELL.

NEW YORK.—With both the Yanks and the Giants back on their feet and in first place again it begins to look as tho the New York Athletics might do the entertaining again this fall in the world's series.

The Yanks in a two-club race look to be better prospects at the present time than the Giants, who have three clubs right on their heels.

Babe Ruth has found his eyes, and when the swat king is working the Yanks get there. Huggins is getting his pitchers around in shape and he has plenty of them.

### WIN FOUR

The Yanks played the best ball in the league last week, winning four out of six games. The Browns had a heavy week and succeeded in getting an even split in ten games. Detroit hit a snag and dropped four out of seven games while the Cleveland Indians picked up a little and won four out of seven games. The White Sox, which threatened for several weeks, dropped five out of eight games and looked to fade from the picture.

The Yanks have a harder finish to make than the Browns because the schedule puts Huggins up against the necessity of whipping all the better clubs while the Browns will finish in the second division teams. The Yanks also have to finish on the road but they made such a good showing on their last trip traveling does not look like a big handicap to them.

### BROWNS LOSE AGAIN

The St. Louis Browns continue to pound the ball hard but succeeded only in fattening their batting averages while their struggle to stay near the front runners in the American League race grows weaker. They outbit the Athletics in the last of the four game series yesterday, but lost 7 to 5. The Mackmen took three of the four games.

This loss of the Browns placed them a game and a half behind the leading Yanks, who were idle. The Browns today engaged the Red Sox.

## Sarazen Wants the Big Ones

NEW YORK.—Gene Sarazen, the twenty-year old American open golf champion, is good with golf sticks and he knows it.

He is a cocky youngster with all the confidence, the enthusiasm and energy that an American youth carries into sports.

There is nothing of the enlarged cranium apparent in his speech or actions, however. What symptoms he shows of liking his own game are not inordinate. They are but the tendencies of a winning temperament that make him the champion that he is.

Recently one of the clubs around New York offered Sarazen \$500 for an exhibition match, and gave him the privilege of selecting his opponent.

He surprised the club officials by asking them to get Jim Barnes for his opponent.

Joe Kirkwood, the Australian trick shot artist, was kidding the younger champion about it.

"Kinda pick 'em big, don't you Gene?" he asked.

"Well, it'd be better to be knocked off by Barnes than some little bird, wouldn't it?" Sarazen replied.

In Walter Hagen, the American winner of the British open championship, and Sarazen the United States has two real champions who are a credit to themselves, to the game and to the nation.

Both stepped into fame gracefully and both minimized their success with the statements that they had all the good breaks and their opponent went down thru hard luck.

### H. WILLS KAYOES

## PREPARES FOR CAMPAIGN

Don Bowsler, Lima's premier middleweight, is now starting to round into shape for his fall campaign and is preparing for some strenuous workouts.

He has secured new training quarters at the rear of the Club cigar store, managed by Les Morton, on S. Main-st. Charley Maxwell's gym will also be patronized by him.

Bowsler has always been a one-punch artist and usually after delivering it the ironworker was content to stop, but hereafter tactics will be changed and more attention devoted to the follow-up.

One trouble that Don has been having is the matter of sparring partners. He is looking for good husky birds from 160 to 175 pounds.

### THREE TEAMS OUT

CLEVELAND.—The Detroit, New York and St. Louis teams were eliminated in yesterday's first round of play in the Union Printers' International Baseball League championship tournament.

Washington won from New York, 8 to 3, and Chicago defeated St. Louis, 14 to 8 in the afternoon game. Detroit lost to Pittsburgh, 5 to 3, in the morning game.

## FOUR EVENTS ON WEDNESDAY FAIR RACE PROGRAM

Four events, three harness and one running, are on the program Wednesday of county fair races. Purses aggregate \$1,025. The outstanding event is the 2:17 pace, Hoover-Bond stake, for a purse of \$1,000.

A classy field of starters will feature the race, among them El Verso, J. H. Hill's Sandusky nag which was so named after copying the San Francisco and El Verso stake here several years ago. Laura Forbes, Ora Jump's pacer from Kenton, and other good nags will be seen in action.

In Walter Hagen, the American winner of the British open championship, and Sarazen the United States has two real champions who are a credit to themselves, to the game and to the nation.

Both stepped into fame gracefully and both minimized their success with the statements that they had all the good breaks and their opponent went down thru hard luck.

### NAMES IS NAMES, BUT SOMETIMES THEY MEAN A WHOLE LOT

Willard Stuart, manager of Eddie O'Dowd, Columbus bantam, has a hard time of it in separating his fighter from Eddie's brother, Phil.

Almost every time wire dispatches come out on results of Phil's fights Eddie's name crops out, says Stuart.

One of the most outstanding cases of the kind occurred on August 7, when Don Baxter defeated Phil in Lima. Eddie was named as the one defeated and Stuart literally sweat blood to get the story "killed."

Another case happened in May, when Carl Tremaine laced Phil at Youngstown. A wire story said Eddie was the boy beaten.

But Stuart isn't discouraged. He is trying in his own way to bring order out of chaos and using every means to show fans Eddie O'Dowd's record, which is one of the best in the bantam division.

A win scored by Eddie over Pal Moore at Columbus, August 14,

speaks for itself. Stuart claims his fighter is the only logical contender for Joe Lynch's title.

### NET MATCHES OPEN SEPTEMBER 1

September 1 will be the getaway date for the annual Y. M. C. A. tennis tournament, which will this year be made a civic affair.

All racket wielders of the city who desire to enter should get in touch with Walter England, at the National Cash Register company, phones Main 6386 and Rice 5042.

Entries will close before September 1, England announces.

### BUCK TRIMS BURNS

LOUISVILLE, Ky. — "Soldier" Buck of Louisville, was given the newspaper decision over Tommy Burns of Cleveland at the end of their 12-round bout here tonight.

Buck's best round was the sixth, in which he repeatedly drove Burns from one side of the ring to the other. They are middle weights.

### COBB MAKES GAIN

CHICAGO — Ty Cobb, Detroit batting star, gained a point on his rival, George Sisler of St. Louis, in their race for batting honors of the American League, today.

Following a day of rest yesterday both athletes swung back into action today, Cobb making two hits in four times at bat, while Sisler potted a like number in five times at bat. Sisler leads with an average of .408, Cobb is trailing with a mark of .399.

### RECORDS LOWERED

PARIS.—Records were broken by the American girl winners in the first international track and field meet in Paris. Miss Lucille Godbold, Esili, S. C., won the eight-pound shotput and established a new record of 20 meters, 22 centimeters.

Miss Camelia Sable of Newark, N. J., won the 110-yard hurdles and made a record of 14 2-5 seconds.

### SUCCESSORS TO GROVER ALEXANDER

VIRGIL CHEEVES AND (INSET) ANTHONY STUELAND

### GROVER CLEVELAND ALEX- ANDER'S MIGHTY RIGHT ARM

will not last forever. Nobody knows this better than Bill Killefer, who caught the Cornhusker's mystifying shoots during their youthful days and who's now Alexander's manager.

As director of the Chicago Cub's destinies, Killefer is looking into the future—he is looking for another Alexander.

Baseball experts believe he has

two worthy candidates in Virgil Cheeves and Anthony Stueland.

This is Cheeves' second season with the Cubs. Stueland arrived in Chicago more than a month ago.

In one recent series between the Cubs and the Giants Virgil performed the feat of beating the New Yorkers in the first and fourth games. In those 18 innings he allowed the world's champions only two runs and eight hits. He won the first game, 3-2, with four hits and the second,

3-1, with four more.

Stueland is capable of these iron-man stunts. He is built along the lines of Ed Walsh, which speaks for itself.

Stueland, living mostly in the bullpen and on the bench, broke into the National League season with a pop. He opposed the St. Louis Cardinals in his first game, beat them 5-0 and strung six strikes around Rogers Hornsby's neck the first two times the league's premier son of swat faced him.

## TO OPEN TOURNEY

DETROIT — Nine o'clock tomorrow morning will see the start of the twenty-second renewal of the Western Golf Association tournament for which nearly 200 of the nation's best golfers were here today. Few of the more prominent professionals will be absent.

The tournament is to be held over the course of the Oakland Hills Country Club. It is one of the longest on which a major championship has ever been decided measuring 6,803 yards. Par is 64. PLAY 18 HOLES

All contestants are to play 18 holes, the 64 low scorers to decide the issue Friday. Only eleven amateurs had entered up to today. Charles ("Chick") Evans, as usual led the amateurs in popular favor.

Among the popular professionals are Emmet French, Youngstown; Jack Hutchison, Chicago and George Sargent, Columbus.

### HAGEN HAS TITLE

The title is held by Walter Hagen who, however, is unable to compete owing to exhibition engagements. Exhibition contracts also prevented Gene Sarazen, national open and professional champion from competing.

## SMITH GIVEN FINAL DECISION

Re-matching of the boys for a fight in Lima may be one of the conditions imposed by Earl Smith, local manager, who has the final word in the suspension matter of Eddie Ketchell, Toledo featherweight.

Smith was given the final word by the Toledo boxing commission, who has been investigating alleged misconduct in the ring by Ketchell in a fight last week with Jake Gross. On Smith's testimony may depend whether Ketchell is exonerated or suspended.

The manager declared last night he is seeking to bring Ketchell here to show fans how badly Gross can defeat him.

## DEFEATS SHANNON

COLUMBUS.—Charlie O'Connell, Cleveland, won a technical knock-out over Eddie Shannon, Columbus, in the eleventh round of their scheduled 12-round contest here tonight. The referee stopped the bout after Shannon had been felled five times. They are lightweights.

Mr. King C. Gillette,  
c/o Gillette Razor Co.,  
Boston, Mass.

May 5th, 1921

My dear Mr. Gillette:

I am glad that you asked me about my Gillette razor. The old one I have used, I thought represented the last word in shaving comfort, but the new and improved Gillette certainly is proving to be a genuine revelation.

I am sure you know how well we think of your razors, for last year we presented nearly a thousand Gillette Safety Razors at Christmas time to our various friends and never was there a more genuinely appreciated holiday gift.

Please accept my sincere congratulations on the remarkable strides you have made in improving Gillette Razors.

Sincerely yours,  
W. J. Burns  
President

### TRY FORD'S CHOLERA AND ROUP REMEDY

For chickens with Roup Cholera, white  
diarrhea. It restores them back to  
health condition and wards off other  
diseases. Also especially for poultry  
shippers. It gives them a splendid  
appetite, restores their comb and  
keeps them not to lose in weight. It  
cures them fast, more eggs than the  
old remedy. This testimony from  
Mrs. Chas. Hamilton 1220 W. Spring  
St., Lima, Ohio. Before I began liv-  
ing this medicine to my chicks I was  
losing from three to four a day. After  
giving them the first dose I haven't  
lost one more. They now are in a  
fine condition and are laying.

MUTT AND JEFF—JEFF KNEW WHERE TO GET THIS GUY—

BRINGING UP FATHER—

SHORT SHAVINGS

Charles Dalley, realtor, parked his Marmion near the Orpheum theater. When he returned and tried to drive away he discovered the machine was practically tied to the curb. He shot the engine in high, he tried it in second, low and reverse. Nothing doing. He couldn't move an inch. He had gas, power, and everything, but the car wouldn't budge. Friends, he then discovered had jacked up the rear wheels.

Walter W. Craig, county commissioner, tells of taming a fish at Bear Creek, Mich. "It became as tame as a dog," he said, "but one day it tried to follow me, and while I was crossing the creek on a log, it fell in and was drowned."

Jim Jolley says a friend of his visited a moonshine still in the woods while sightseeing in central Ohio. He sampled the moonshine, found it stronger than he had expected, and wandered off the path on his way back to the road. A buzzing sound made by a locust sounded like a rattlesnake in his path. He nearly fell over backward, but he caught his balance and threw up his hands. "Strike me now," he said. "I was never better prepared!"

Walter Scott went to a party where the host opened up a case of beer he had made. "It wasn't very strong," he says, "but it was strong enough to make a fat guinea reckless. He sat down in two frail chairs he had been avoiding, and broke both."

Joe Gooding thought his car had been stolen. He remembered parking it in front of a garage. He forgot he had talked about having it repaired. The garage man thought it was left for that purpose and had towed it into the shop without saying anything to Gooding.

Bobby and his grandfather were discussing the wonders of electricity, reports "Bill" Allgire. "My boy," said grandpa, "I have taken hold of a wire containing a current of 240 volts." Bobby, carried away completely at the thought, asked, "And did it kill you, grandpa?"

The Tire that is Making New Records in Heavy-Duty Hauling

Truck operators in all parts of the country are making wonderful new records with Goodyear All-Weather Tread Solid Tires.

They are getting the things that mean maximum tire efficiency in heavy-duty trucking—

- 1 Traction—
- 2 Cushioning—
- 3 Long, Economical Wear

These are exactly the things the Goodyear All-Weather Tread Solid Tire is designed and built to deliver.

This tire has the enormous tractive power of the famous All-Weather Tread; in the 36x10 size, for example, 704 inches of its high, thick blocks grip and hold in mud, slush and ice.

Also it has the cushioning resilience of that great tread design. It is 60% springier than some so-called cushion tires, and 12% more resilient than the average.

Even experienced truck owners

marvel at the stubborn wearing quality of Goodyear All-Weather Tread Solid Tire construction. When the original tread finally is worn down, it can be renewed quickly at little cost by an easy regrooving process. Get this new Goodyear All-Weather Tread Solid Tire. It will give you extra miles, greater operating economy, longer truck life and more profitable hauling at low cost.

For other types of hauling, Goodyear makes other special types of tires. Sold and serviced by your Goodyear Truck Tire Service Station Dealer
